## AGENCY OF THE NATIONAL (FIVE-TWENTY YEAR) LOAN.

OFFICE OF LIVERMORE, CLARK &amp; CO., No. 24 Wall-st., New-York.

We take this means of answering the numerous inquiries made of us respecting the U.S. Five-Twenty Year Loan for which we act as agents.

Said Bonds bear six per cent interest, payable semi-annually in Gold, on the first of May and the first of November.

Have Ten years to run, but being redeemable at the time of maturity, the government after five years, are designated Five-Twenty.

Are issued both in Covenanted and Registered Bonds, the former in denominations of \$100, \$200, \$500, \$1,000; the latter in \$100, \$200, \$500, \$1,000, and \$10,000.

The Covenanted Bonds have coupons attached for twenty years, and are payable and transferable to bearer.

The Registered Bonds are issued in the name of the purchaser whose name and residence are to be entered on the Bonds.

Transfers of the interest are payable in Gold, as provided by law, in common with all Government Bonds free from taxation by city, town, county or State; and the income derived therefrom is subject only to one-half of the U.S. tax levied upon incomes derived from other sources.

These Bonds are supplied by us at par and secured interest in currency, interest commencing to the purchaser upon deposit of the money. Hence, the first Coupon falling due, will be stamped with the date of the issue of the Bond, will be fractional instead of three per cent like the succeeding ones.

Bonds may be otherwise accompanied by draft of New-York or current funds, will be promptly responded to.

SUNDAY-SCHOOL JUBILEE.—Monday evening the Sunday-School Jubilee held its anniversary at the Cooper Institute, under the auspices of the Methodist Episcopal Church of New-York. The spacious edifice was packed with a most attentive, and there were a great many children present, we will add, beautiful audience. Songs were sung by the Rev. Dr. Cummings, the Rev. Dr. Cookman, a reverend gentleman whose name we do not ascertain, and the Rev. Henry Ward Beecher. He made one of his happy impromptu speeches, in which he dwelt at some length on the conversion of children. He had faith in the conversion of the young. The world is not children are converted, but that grows before them; and must become like little children before they can enter the Kingdom of Heaven. It is as difficult to report Mr. Beecher as it is to report Sings with its sunlight and rain, lightning and thunder, bird-music, and odor of blossoms. He must be heard to be appreciated. There is no singer in paper and ink, but there is nothing like him in his words as they come pelting from his lips.

A TRIP TO THE PUBLIC INSTITUTIONS ON BLACKWALL'S ISLAND.—A large number of the members of the New-York Conference of the Methodist Episcopal Church, availed themselves of an invitation from the Hon. Simon Draper, to visit our public institutions on Blackwall's Island yesterday. They visited the various departments, under the guidance of Mr. Isaac J. Oliver, and expressed themselves highly pleased with the trip. Pleasant speeches were delivered by the Rev. Messrs. Wakely, Fox, Hale, and others, and a hospitable meal was served for the entertainment of the guests. The world was pleased with our mode of taking care of those who cannot take care of themselves; the better will our admiring system be understood. There is no greater example of the benevolence and time who have charge of the world to say than they are to the blind—sight to the lame—eyes to the deaf—wisdom to the foolish—and shield to the infirm.

The money of the country seeking safe investment

continues to pour into the Sub-Treasury. To-day the receipts are \$1,600,000 on temporary loan, and \$516,000 for conversion into 5-3/4s. The largest temporary deposit was \$300,000 from an institution, and a very large number of the deposits was from the interior.

Gold fell off about mid-day to 145, under a pressure to sell, and but little desire to buy. At this point new buyers came in and took the market up to 147, but upon the news of the running of the batteries at Vieckeburg by our iron-clads, the quotation receded rapidly to 140. The gold speculation has entirely lost the backbone it had some time since, and after a spasmodic advance always fell back to a lower point than it started from.

The following table will compare the present condition of the city banks with that at the close of the corresponding week last year:
